

Shiksha Pe Charcha

6th April

Indus International University hosted the prestigious 'Shiksha Pe Charcha' on April 6, 2024. Chief Guests in this program were Tehsildar Una Shri Jaimal Lal, Shri Davinder Chandel, Shri Rajinder Kaushal, Shri SK Bansal, Pradhan Bathu Shri Sulekha ji, Professor Shri. SC Chaudhary, Shri. Suresh Sharma etc. were present; Vice Chancellor Dr. Sanjay Kumar Bahl and Registrar Dr. Jagdev Singh Rana were present. Registrar, Dr. Jagdev Singh Rana brought together teachers and village heads for practical exchange of ideas. He underlined the importance of quality education in the upliftment of students and communities. He stressed the need for collaborative efforts to ensure overall development and equal access to education for all. Government College Principal, SK Bansal talked about National Education Policy, Mr. Davinder Chandel talked about building self-confidence among students, Dr. Ram talked about communication skills and Professor SC Chaudhary also talked about the importance of students. The discussions revolved around several key benefits, each of which contributes to the overarching goal of promoting inclusive, equitable and quality education. This collaborative approach not only enriched the knowledge and experiences of the participants but also laid the foundation for sustainable educational practices. Participants collectively brainstormed solutions to common educational challenges, leveraging resources, expertise and networks to drive meaningful change. Advocacy and awareness were also highlighted as important avenues to advance policy reforms and influence positive change at various levels. As this enriching gathering drew to a close, the spirit of 'Shiksha Pe Charcha' grew, inspiring the participants to continue their journey towards transformative education, one collaborative step at a time.

Seminar 9th April

To foster global partnerships and enhance career prospects for its students, Indus International University hosted a thought-provoking seminar. In this program, Honorable dignitaries including senior leader Dr. D.K. Saxena, Director R.K. Sharma, and Williams of

Accreditation Solutions Delhi were present. They provided information in the area of foreign cooperation, exchange programs and placement opportunities. Held amidst an eager audience of students and faculty members, the seminar led to fascinating discussions around the importance of international cooperation in today's interconnected world. Addressing the gathering, the speakers emphasized the important role played by foreign exchange programs in broadening the horizons and nurturing inter-cultural competencies among the students. Dr. D.K. Summing up the seminar said, "Today's global scenario demands a nuanced understanding of diverse cultures and perspectives. Foreign collaborations provide invaluable opportunities for students to expose themselves to diverse academic environments, thereby promoting holistic development." The session also highlighted the complexities of placement and the evolving demands of the job market. The seminar received appreciation from Vice Chancellor Dr. Sanjay Kumar Bahl and Registrar of Indus International University, who appreciated the initiative for its ability to empower students and shape their future goals.

Chess Competition 10th April

Indus International University, known for its commitment towards holistic education, recently hosted an interesting chess competition on its campus. The event not only showcased the strategic skills of the participants but also underlined the important role of co-curricular activities in shaping all-round individuals. Dr. Sanjay Kumar Bahl, Vice-Chancellor, Indus International University, stressed the importance of getting involved in activities beyond the scope of traditional academics. He commented,

"Participation in co-curricular activities promotes critical thinking, decision-making skills and enhances overall cognitive abilities. Such efforts shape students as competent individuals capable of dealing with the complexities of the modern world." The competition witnessed an intense battle of wits and strategy, with the participants displaying remarkable skill and determination. After a series of exciting matches, Dheeraj, a student pursuing MSc in Mathematics, emerged as the winner, showcasing his exceptional strategic skills on the chess board. Nitin, who is pursuing MSc in Chemistry, displayed commendable skills and secured the runner-up position. As a mark of appreciation and encouragement, Registrar Dr. Jagdev Singh Rana honored the winners with medals and certificates. He lauded their dedication and sportsmanship while highlighting the importance of recognizing and celebrating excellence beyond academic achievements. He reiterated the need for universities to give priority to the holistic development of students by providing diverse opportunities for engagement and development.

Industrial Visit (Chemistry)

12th April

Seventeen students of the Department of Chemistry, along with Head of Department Dr. Sumit Kumar, Training and Placement Officer Pankaj Rana and Faculty Ms. Sakshi recently visited Sukhjiti Agro Industries and learned about glucose production. The highlight of the visit was for the students to understand and gain

knowledge about the complex process of glucose production at the prestigious industrial complex. Led by experts from Sukhjiti Agro, the students conducted an in-depth study of the machinery and methodology involved in the production of glucose, a vital ingredient in various industries including food, pharmaceuticals and beverages. The students had the privilege of getting guidance through the complex process from none other than CA Daljeet Singh, a key person of Sukhjiti Agro Limited as well as respected HR Head Sanheev. Industry visits serve as a bridge between academic learning and real-world application, giving students a unique opportunity to see industrial processes in action. Such experiences not only complement theoretical knowledge but also inculcate in students a deeper appreciation of the practical implications of their studies. The visit to Sukhjiti Agro Industries Limited proved to be a transformative experience for the students, enriching their educational journey and expanding their horizons beyond the scope of textbooks and lectures. By observing first-hand the complex workings of a leading industrial establishment, students gained invaluable insight into the practical applications of chemistry in manufacturing. In conclusion, the visit was not only a remarkable educational experience but also a testament to the commitment of the University leadership towards promoting industry-academic collaboration. Vice Chancellor Sanjay Kumar Bahl and Registrar Dr. Jagdev Singh Rana personally encouraged the students to actively participate in such industry visits, recognizing their immense value in enhancing practical knowledge and preparing students for future career endeavours.

Guest Lecture

18th April

Indus International University hosted a special guest lecture by Dr. Sukhjiti Singh, Professor and former Director of the Department of Computer Science, GNDU. Known for his expertise in binary systems, Dr. Singh engaged students and staff alike with his deep insight into computer science engineering. He was warmly welcomed in the lecture organized in the esteemed presence of Dr. Sanjay Kumar Bahl, Vice-Chancellor of Indus International University, who was

also given an honorary degree by Registrar Dr. Jagdev Singh Rana. Dr. Singh's deep knowledge and experience in the field of binary systems brought a unique perspective to the lectures, enriching the academic discussions at the University. Highlighting the complexities of the binary system, Dr. Sukhjiti Singh enlightened the audience with practical applications and theoretical foundations, demonstrating the importance of binary concepts in modern computing. His expertise serves as a beacon of inspiration, encouraging aspiring engineers and researchers to explore the limitless possibilities of binary systems in

technology. Furthermore, the interaction with Dr. Singh opened avenues of collaboration and guidance, paving the way for students to undertake research efforts and projects under his guidance. His visit undoubtedly catalyzed intellectual growth and academic excellence within the university community. Dr. Sanjay Kumar Bahl expressed his gratitude to Dr. Sukhjit Singh for sharing his expertise and enriching the educational environment at Indus International University. He stressed the importance of such interactions in promoting a culture of innovation and excellence in education. Dr. Sukhjit Singh's enlightening lectures have left an indelible impression on the students and staff of Indus International University, empowering them to harness the power of the binary system in their academic pursuits and beyond. This is a testament to the University's commitment to fostering intellectual curiosity and nurturing talent in the ever-evolving landscape of computer science engineering.

Industrial Visit (Management)

25th April

To provide students with real-world insight into industrial operations, Indus International University Department of Business Management organized a transformational industrial visit at Sukhjit Agro Industries, Gurplah. The trip proved to be an invaluable experience for the students pursuing MBA degree as they learned about maize products. Understand the

complexities of production. The tour was conducted under the leadership of Ms. Niharika Agnihotri, Head of the Department of Business Management and accompanied by Mr. Gurpal Rana. He was given an extensive tour of Sukhjit Agro Industries, where he was involved in the manufacturing of various products derived from maize. They gained first-hand knowledge about production processes. Animal feed, corn flour, milk powder and glucose to students Introduced to the diverse range of products manufactured by the industry including. Interactive sessions and guided tours through this, they learned about the sophisticated machinery and techniques employed at each stage of production. Observing these processes firsthand gives students a deeper understanding of the complexities involved in industrial operations. Vice Chancellor Dr. Sanjay Kumar Bahl and Registrar Dr. Jagdev Singh Rana announced the academic Highlighted the importance of such industrial visits in teaching. They expose students to real-world enterprises. Expressing optimism about the impact of such initiatives on the overall development of students, Dr. Bahl said, "Experiential learning opportunities such as industrial visits bridge the gap between theoretical knowledge and practical application. Play an important role in bridging. They empower students with invaluable insights and skills. Who are essential to their future professional endeavors?" Dr. Jagdev Singh Rana echoed these sentiments, describing the program as a treasure trove of practical learning opportunities for the students. Emphasis was placed on the abundance of industrial establishments in the vicinity of the university. He told the students about his to enrich the educational journey and gain a competitive edge in the dynamic business landscape Encouraged to take advantage of these resources. Industrial visit of Sukhjit Agro Industries to provide holistic education beyond the boundaries of traditional classroom this is proof of the university's commitment.

Industrial Visit (Pharmacy)

30th April

Students pursuing a degree in Pharmacy at Indus International University had recently gained exposure to the pharmaceutical industry. They embarked on an enriching educational tour to broaden understanding. Three respected faculty members and led by the

Training and Placement Officer (TPO) of the university; the excursion covered health care facilities and provided invaluable insight into the operational dynamics of pharmacies. This article aims to enhance the educational experiences of students and explores the importance of such tours in preparing for the challenges of the industry. The students, along with faculty members Ms. Shamli, Ms. Yukti and Ms. Sakshi, TPO Pankaj of Indus International University Rana, visited Sai Hospital Tahliwal and Ravi Pharmacy as part of his educational programme. During the course of tour, they got the opportunity to witness first-hand various aspects of hospital management, patient care and pharmaceutical services. Educational visits play an important role in supplementing classroom learning with practical experience, enabling students to one gets a holistic understanding of their field of study. For D.Pharmacy students, health care facilities and pharmacies visiting is particularly beneficial as it allows them to experience the application of theoretical knowledge in real-world scenarios. By observing the day-to-day operations of Sai Hospital Tahliwal and Ravi Pharmacy, students learned pharmaceutical practices, Gained insight into inventory management and regulatory compliance. By interacting with professionals in the pharmaceutical industry, students learn about industry trends, gained valuable insight into challenges and career paths. The educational tour facilitated networking opportunities, which helped students establish connections with industry experts and potential employers. Visiting both a hospital and a pharmacy exposed students to diverse health care settings, allowing expanded their understanding of the interconnectedness of different health care areas. It promoted performance adaptability and prepared students to deal with the complexities of the health care landscape upon graduation. Such educational initiatives provide holistic learning experience and help in achieving success in the pharmaceutical industry. Vice Chancellor Dr. Sanjay Kumar Bahl and Registrar Dr. Jagdev Singh Rana appreciated the efforts of the students and the department for organizing such an educational tour and wished them success in their future endeavours.

Article Publishing

An article has been published of the Vice Chancellor of our university, Dr. Sanjay Kumar Bahl, in the Special Issue of University News 62(16) April 15-21, 2024 brought on the occasion of 98th AIU Annual General Meet and National Conference of Vice Chancellors–2023-24 on Higher Education@2047. The article is “A Glorious Journey into Viksit Bharat through Higher Education”. The article outlines the vision of "Viksit Bharat 2047" across various sectors such as energy security, education, innovation ecosystem, security, social welfare, healthcare access, economy, and export. Viksit Bharat 2047 represents a bold vision for India's future, guided by inclusivity, sustainability, and progress. With collective efforts and visionary leadership, India aims to realize its full potential and emerge as a global leader in the 21st century.
