NCC Naval Cadets' B certificate exam

The cadets of NCC Naval Wing of Indus International University took the crucial exam. The exam and practical tests were conducted under the supervision of the Commanding Officer. The aim of this exam was to enhance the mental and physical abilities of the cadets. The cadets performed excellently in the exam. They wished the cadets success and wished them a bright future. The cadets demonstrated their naval knowledge and skills through this exam. In the practical test, they practiced various naval procedures, which increased their confidence. This exam is not only important for their career but also prepares them for the service of the country. The University administration appreciated the efforts of the NCC wing and assured to promote such activities in future as well.

4th February

Best out of waste competition

Students at Indus International University displayed their resourcefulness and creativity in the recently held "Best Out of Waste" competition, which aimed to raise awareness about sustainability and the importance of recycling.

Result of Best out of waste –

1st position - Team Management 1 and Team Mathematics,

2nd position - Team Management 2 & Team Pharmacy,

3rd position - Team management 3 and Team CSE.

6th February

TB awareness guest lecture

An important awareness campaign was organized at Indus International University today to educate students about the causes of Tuberculosis (TB), preventive measures and their contribution in eradicating the disease. The campaign was organized with the aim of making the country a "Developed India" by 2047, with a special focus on the role of students. TB is an infectious disease characterized by symptoms such as cough, fever, night sweats, and weight loss. Dr. Anisha Singh told the students that to completely eliminate TB, it is very important to spread awareness and give correct information to people. She also said that students should tell about the symptoms of TB in their surrounding communities, so that people can get treatment in time. Dr. Vishal Thakur and Satyash Kumar said that TB cases in the district are improving steadily, but still many people are deprived of the right information about it. In this context, Senior Lab Supervisor Sandeep Dhir gave information about the process of TB testing. Gulshan Sharma told the students that if we all join hands to raise awareness against TB and give correct information to people, then we can make the dream of "Developed India" come true by 2047.

8th February

International conference

Indus International University (IIU) successfully hosted the prestigious International Conference on "Viksit Bharat@2047 – An Approach for Achievement through Multidisciplinary Academic Research." The Chief Guest, Prof. (Dr.) B.C. Sharma, a retired professor from Jammu University, delivered an inspiring speech emphasizing the significance of education, innovation, and professional excellence. The conference attracted participation from distinguished academicians from China, Uzbekistan, the UAE, the United Kingdom, and the United States, further underscoring the significance of global academic cooperation. Prominent speakers included Dr. Manoj Nainwal from Beijing University, China; and Prof. (Dr.) Vipin Gupta from California State University, USA. These experts shared valuable insights on technological advancements, economic reforms, governance strategies, and sustainable development, adding a global perspective to the discussions.

17th February

Selling strategy competition

Indus International University, recently organized an exciting Selling Strategy Competition which provided an opportunity to students from various academic streams to showcase their marketing prowess and strategic thinking. Students from various participated in the competition, providing a great platform for the students to showcase their creativity and business acumen. 14 teams comprising a total of 58 students participated in the competition, who presented the most innovative and effective sales strategies for various products and services. Each team presented their sales pitch, in which they not only displayed excellent communication skills but also a deep understanding of market analysis and business operations.

19th February Health awareness lecture

A special guest lecture was organized by the Department of Business Management, Indus International University, in which Mr. Nitin Tandon, founder of Ranawat Nutrition Center, Bangana, shared his views on

"Health Awareness, Healthy Diet Plan and Proper Process of Weight Gain and Loss". He provided important information to the students with examples from his real life experiences, which will surely prove to be very valuable for the students of the university. He explained how many health problems are increasing due to junk food and irregular eating habits among today's youth. He also discussed in detail about the scientific methods of losing and gaining weight and advised them to avoid misconceptions. Many students personally talked to Mr. Tandon about their health problems and got proper guidance.

20th February Guest lecture

The Department of Pharmacy at Indus International University had the privilege of hosting Mr. Y.N. Gupta, a renowned entrepreneur and industry expert, for an insightful guest lecture on the theme of Entrepreneurship in the Pharmaceutical Industry. The lecture aimed to inspire and equip pharmacy students with the necessary tools and mindset to succeed as future entrepreneurs in the fast-evolving pharmaceutical sector. Mr. Gupta began his lecture by emphasizing the importance of cultivating an entrepreneurial mindset, especially for pharmacy students who are already armed with the knowledge of pharmaceutical sciences. He highlighted that entrepreneurship is not merely about starting a business but about solving problems and creating value. A core topic of the lecture was how pharmacy students can identify and seize entrepreneurial opportunities within the pharmaceutical sector.

23rd February Management day

Indus International University celebrated Management Day with great zeal, bringing together faculty, students, and distinguished guests for a day filled with learning, creativity, and entertainment. The event was graced by the presence of deans and faculty from various schools within the university, making it a vibrant and collaborative occasion. One of the highlights was a captivating drama that not only entertained the audience but also conveyed a powerful message about the consequences of hiring under political pressure. The storyline depicted how a once-thriving company faced closure due to the recruitment of unskilled staff, highlighting the importance of merit and professionalism in management. The event also featured several engaging performances.

The celebration concluded with a sense of accomplishment and inspiration, leaving participants with valuable lessons on leadership, strategy, and the importance of skilled management in ensuring organizational success.

24th February Webinar on Cracking GPAT

Indus International University's School of Pharmacy successfully organized an informative Webinar titled "Cracking GPAT: Gateway to a Bright Future in Pharmacy" on February 24, 2025. The online session, which took place at 11:00 am, featured Dr. Rohit Bhatia, Associate Professor at Chitkara University, Punjab, as the key speaker. Dr. Bhatia shared valuable strategies, tips, and resources to help students prepare effectively for the Graduate Pharmacy Aptitude Test (GPAT), offering insights into the exam pattern and study techniques. The Webinar provided students with important knowledge to enhance their GPAT preparation, offering them a clearer path toward a successful career in pharmacy and helping them understand the significance of the exam for future prospects.

25th February Business Carnival

Students from Indus International University participated in the Business Carnival-2025 hosted by Babbar Akali Memorial Khalsa College, Garhshankar. The event was organized under the esteemed aegis of the Institution's Innovation Council (IIC) and was a collaborative effort between the Department of Commerce and the Department of Computer Science, with funding from the Business Students' Association (BSA). The carnival aimed to encourage business innovation and foster creativity among students. The event offered a platform for students to showcase their skills and engage in various business-related.

28th February Educational Trip

A group of 15 students from the Department of Management and Commerce of Indus International University visited Chandigarh on an educational tour to Mansa Devi Temple, Rock Garden and Mahendra Chaudhary Chhatbir Zoo. The tour was aimed at providing the students practical experience related to cultural heritage, creativity of art and wildlife conservation. The tour started from Mansa Devi Temple, Panchkula, where the students explored the religious and historical significance of the temple. They also interacted with the temple authorities to understand the management of the temple and community engagement efforts. Next, the students visited Rock Garden, a unique artistic site famous for sculptures made from industrial and domestic waste. The tour emphasized on environmental sustainability and recycling techniques, where the students were inspired by the creative approach towards waste management. The last stop was Mahendra Chaudhary Chhatbir Zoo, where the students saw various wildlife species and learnt about biodiversity conservation efforts.
